

Smart Mosque Management System

Features & Functions | DBMS Course Project

Course Title: Database Management System Course Code: CSE-2423

1. Mosque Route / Recommendation

FEATURES	FUNCTIONS
1. Add a new mosque (Admin)	addMosque()
2. View all mosques	getAllMosques()
3. View mosque list by region	getMosquesByRegion()
4. View mosque details	getMosqueDetails()
5. Search mosque by name	searchMosque()
6. Delete a mosque (Admin)	deleteMosque()
7. Add funding to mosque	addMosqueFunding()
8. View mosque funding history	getMosqueFundingHistory()

2. Maktab Management

FEATURES	FUNCTIONS
1. Register a new Maktab (Admin)	addMaktab()
2. View all Maktab	getAllMaktab()
3. View Maktab by Mosque	getMaktabByMosque()
4. Search Maktab by name	searchMaktab()
5. Enroll a student (Admin)	enrollStudent()
6. View all students in a Maktab	getStudentsByMaktab()
7. Add funding / donation	addFunding()
8. View funding history	getFundingHistory()
9. Delete a Maktab (Admin)	deleteMaktab()

3. Ouran / Hadith Event (Mahfil) Locator

FEATURES	FUNCTIONS
1. Create a new Mahfil event (Admin)	createEvent()
2. View all events	getAllEvents()
3. View events by region / location	getEventsByRegion()
4. View event details	getEventDetails()
5. View upcoming events	getUpcomingEvents()
6. Delete / cancel an event (Admin)	deleteEvent()

4. Question & Answer System

FEATURES	FUNCTIONS
1. Post a new question	postQuestion()
2. Post an answer to a question	postAnswer()
3. View all questions	getAllQuestions()

4. View answers of a question	getAnswersByQuestion()
5. Delete a question (Admin)	deleteQuestion()

5. User Authentication

FEATURES	FUNCTIONS
1. Register a new user	register()
2. Login	login()
3. Logout	logout()
4. Update profile	updateProfile()

6. Prayer Times & Ramadan Schedule (Aladhan API)

FEATURES	FUNCTIONS
1. Get daily prayer times by district	fetchPrayerTimes()
2. Get Ramadan Sehri/Iftar schedule	fetchRamadanSchedule()

7. Course / Learning Module (Planned)

FEATURES	FUNCTIONS
1. Add a new course (Admin)	addCourse()
2. View courses by mosque	getCoursesByMosque()
3. View course details	getCourseDetails()
4. Enroll in a course	enrollInCourse()
5. Delete a course (Admin)	deleteCourse()

Legend: (Admin) = Requires admin role | (P) = Protected route | (A) = Admin only | API built with Node.js, Express, Prisma ORM, PostgreSQL
