

Smart Mosque Management System

Features & Functions | DBMS Course Project

Course Title: Database Management System

Course Code: CSE-2423

1. Mosque Route / Recommendation

FEATURES

1. Add a new mosque
2. View mosque list by region
3. View mosque details
4. Search mosque by name

FUNCTIONS

1. `addMosque()`
2. `getMosquesByRegion()`
3. `getMosqueDetails()`
4. `searchMosque()`

2. Maktab Management

FEATURES

1. Register a new Maktab
2. Enroll a student
3. View all students in a Maktab
4. Add funding / donation
5. View funding history

FUNCTIONS

1. `addMaktab()`
2. `enrollStudent()`
3. `getStudentsByMaktab()`
4. `addFunding()`
5. `getFundingHistory()`

3. Quran / Hadith Event (Mahfil) Locator

FEATURES

1. Create a new Mahfil event
2. View events by region / location
3. View event details
4. Delete / cancel an event

FUNCTIONS

1. `createEvent()`
2. `getEventsByRegion()`
3. `getEventDetails()`
4. `deleteEvent()`

4. Question & Answer System

FEATURES

1. Post a new question
2. Post an answer to a question
3. View all questions
4. View answers of a question
5. Delete a question

FUNCTIONS

1. `postQuestion()`
2. `postAnswer()`
3. `getAllQuestions()`
4. `getAnswersByQuestion()`
5. `deleteQuestion()`
